## BACK PAGE

For each essential requirement, listed in Annex IA that applies to the recreational craft the details of the referenced standards or other normative documents against which compliance is declared should be given. **It is important that the revision years of the standards are clearly stated** (e.g. EN ISO 8666:2002).

If reference is made to the technical file, this should be in a precise, complete and clearly defined way, for example by indicating applicable pages or chapters. All essential requirements concerning the design, construction and noise emissions that apply to the craft have to be shown on page 2 of the Declaration of Conformity.

Only one tick box per line is acceptable and all lines right of ticked boxes must be filled in.
