

EU Declaration of Conformity for Design and Construction for Watercraft Components in ANNEX II
placed on the Union market separately under the requirements of Directive 2013/53/EU
(To be completed by manufacturer or if mandated, authorised representative)

Name of component manufacturer: _____

Address: _____

Town: _____ Post Code: _____ Country: _____

Name of authorised representative (if applicable): _____

Address: _____

Town: _____ Post Code: _____ Country: _____

Module used for **design and construction assessment**: B+C B+D B+E B+F G H

Name of Notified Body for **design and construction assessment**: _____

Address: _____

Town: _____ Post Code: _____ Country: _____ ID Number: _____

Notified Body certificate number: _____ Date: __ / __ / __

Other Community Directives applied: _____

DESCRIPTION OF WATERCRAFT COMPONENT:

Brand name of component: _____ Model or Type: _____

- | | |
|--|--|
| <input type="checkbox"/> Ignition-protected equipment for inboard and stern drive petrol engines | <input type="checkbox"/> Fuel tanks intended for fixed installations |
| <input type="checkbox"/> Ignition-protected equipment for petrol tank spaces | <input type="checkbox"/> Fuel hoses |
| <input type="checkbox"/> Start-in-gear protection devices for outboard engines | <input type="checkbox"/> Prefabricated hatches |
| <input type="checkbox"/> Steering wheels | <input type="checkbox"/> Prefabricated port lights |
| <input type="checkbox"/> Steering mechanisms and cable assemblies | |

This declaration of conformity is issued under the sole responsibility of the manufacturer. I declare on behalf of the manufacturer that the component mentioned above fulfils the requirements specified in Article 4 (1) and Annex I of Directive 2013/53/EU.

Name and function: _____ Signature and title: _____

(identification of the person empowered to sign on behalf of the manufacturer or his authorised representative)

(or an equivalent marking)

Date and place of issue (dd/mm/yyyy): / /

Instructions for completing the EU Declaration of Conformity

All Annex II watercraft components, when placed separately on the EEA market, **must** have a Declaration of Conformity (DoC). The Directive specifies what information the Declaration of Conformity **must** contain but not its format.

Manufacturer: Any natural or legal person who manufactures a product or has such a product designed or manufactured, and markets that product under his name or trademark. Please provide the address.

Name of component manufacturer: _____

Address: _____

Town: _____ Post Code: _____ Country: _____

Authorised representative: Any natural or legal person established within the Union who has received a written mandate from the manufacturer to act on his behalf in relation to specified tasks. A manufacturer established outside the EU is not obliged to have an authorised representative within the EU, although this may present some advantages.

The delegation of tasks from the manufacturer to the authorised representative must be mandated and in writing, in particular to define the tasks and the limits of the representative's responsibility. The authorised representative may, for instance, affix the CE marking and draw up and sign the EC Declaration of Conformity. If the authorised representative is issuing and signing the DoC, he has to fill out the data field concerning the manufacturer of the component on whose behalf he is acting.

Where a manufacturer has appointed an authorised representative, both their names and addresses shall appear in an appropriate data field.

If a manufacturer established outside the EEA does **not** appoint an authorised representative within the EEA, then the person responsible for placing the component on the market must hold copies of all relevant compliance documents.

Name of authorised representative (if applicable): _____

Address: _____

Town: _____ Post Code: _____ Country: _____

Module B+C, B+D, B+E, B+F, G and H for construction and design and Notified Bodies details:

If a Notified Body intervenes in the conformity assessment for construction and design under one of the following modules: B+C, B+D, B+E, B+F, G or H, its name, address and identification number shall be stated.

The certificate number of the Module B 'EC type-examination certificate' issued by the Notified Body must be stated.

When a different Notified Body is responsible for the Quality Assurance supervision, as in Module B+D and B+E, their name and number must also appear on the Declaration of Conformity.

If module H is used, a certificate number and date should **not** be stated.

Module used:

The modules used for conformity assessment, in accordance with Article 20 of the Directive shall be indicated. Only one modular choice may be applied for each assessment.

Module used for **design and construction assessment:** B+C B+D B+E B+F G H

Name of Notified Body for **design and construction assessment:** _____

Address: _____

Town: _____ Post Code: _____ Country: _____ ID Number: _____

Notified Body certificate number: _____ Date: __ / __ / __

Description:

Use the appropriate line and tick only one box.

DESCRIPTION OF WATERCRAFT COMPONENT:

Brand name of component: _____ Model or Type: _____

Ignition-protected equipment for inboard and stern drive petrol engines

Fuel tanks intended for fixed installations

Ignition-protected equipment for petrol tank spaces

Fuel hoses

Start-in-gear protection devices for outboard engines

Prefabricated hatches

Steering wheels

Prefabricated port lights

Steering mechanisms and cable assemblies

The Declaration: The Declaration of Conformity must identify by name the person empowered to sign on behalf of the components manufacturer, their signature and the position held by that person. If the component manufacturer, or his authorised representative, has empowered in writing a person to sign the DoC, on their behalf, that person can sign this document.

The signature could be stamped, printed, copied etc. but must always be given in such a way that the person empowered to sign could be identified.

This declaration of conformity is issued under the sole responsibility of the manufacturer. I declare on behalf of the manufacturer that the component mentioned above fulfils the requirements specified in Article 4 (1) and Annex I of Directive 2013/53/EU.

Name and function:

Signature and title:

(identification of the person empowered to sign on behalf of the manufacturer or his authorised representative)

(or an equivalent marking)

Date and place of issue (dd/mm/yyyy): / /

Used Reference Documents:

For each Annex II component, the details of the referenced standards or other normative documents against which compliance is declared shall be given. **It is important that the revision years of the standards are clearly stated** (e.g. EN ISO 13929:2017).

If reference is made to the technical documentation, this should be in a precise, complete and clearly defined way, for example by indicating applicable pages or chapters. All essential requirements concerning the design and construction that apply to the components have to be shown on the Declaration of Conformity.

Only one tick box in one line is acceptable and that line right of ticked box must be filled in.
